# MONETARY AND COMMERCIAL.

The prospect seems brightening for a more prosperous sesson, and according to the Baitimore Sun the improvement is not only general, but permanent, the chief basis being the abundant crops raised in all sections, and the necessary impetus thus given to commerce and industry. In some sections there are prospects of an important revival of the manufacturing interests, which will greatly tend to restrict the season of depression. The demand for money at bank is more liberal, but the supply is ample. The rates in Baltimore for prime mercantile paper are 5acl per cent per annum. In the New York money market the quotations for call loans at the bank are 5a6 per cent, and at the Stock Exchange 425 per ct. Time leans for the remainder of the year can be made at 6a7 per ct. Prime mercantile paper is 647 per cent, a few choice names being held at 5a51 per cent. Gold rates continue without much change. Government bonds are quiet but steedy. FORGERY AND FLIGHT, -For two or three days past numors have been affoat touching forgeries alleged to have been committed by a well-known local express man of this city. The last been appointed assistant keeper of the light house at Lower Cedar Point in Virginia, in place of P. T. Morris, resigned. well-known local express man of this city. The has made his residence here since. When the Knox's express was withdrawn from this city he purchased its fixtures here and started business as a city express and baggage transfer. Yundt has always borne a good character, and was supposed to be doing a paying business. Some time since he presented a note for discount at the First National Bank which purported to be endorsed by Mr. Lewis Stein. This note was subsequently found to be a forgcry, and the discovery caused the bank to examine its accounts, when another note for eighty five dollars, endorsed by Mr. M. Bossart, was found, on which fifty dollars had been paid. When this note was shown Mr. Bossart he pro-

and 30th verses, "For whom he did foreknow, them also he did predestinate, &c." At the close of the service the pastor invited a conference of church members. Mr. Webb referred to the protracted meeting now being held in the Methodist Protestant Church, and said that the Rev. Mr. Graham had promised to render him assistance if he would defer his meeting for a time. He had also received a note from Rev. W. S. Penick, stating that such was the congregation and manifest interest in the Baptist Church on Wednesday night that it had been decided to hold another meeting that (Thursday) night, and that the probability was that the special services would be continued next week. After the pastor had made these statements, it was unanimously agreed that for the present it was not desireable to commence a third protracted meeting. It is understood that Mr. Webb and his congregation will unito with the members of the Methodist Protestant Church, and render what assis

THE AGRICULTURAL FAIR .- The fair of the Woodlawn Agricultural Association, which commences in this city on Wednesday next, is exciting much interest among the farmers and fruit growers in this vicinity. The Potomac Fruit Growers' Association and the Anandale and Lebanon Farmers' Clubs will join in the exhibition, and the prospects are for a very creditable exhibition. The various committees having the arrangements in charge have been most energetic in their efforts to make every preparation and provision for the exhibitors, and it is believed that their arrangements are perfect. The steamer Mary Washington will bring exhibitors and visitors to the fair at half the usual rates. The fair will be kept open at night, and the Potomae Ferry Company will run a late boat to and from Washington to accommodate visitors.

COMBINATION STORE. - It has been proposed by some of the employees at the Virginia Midland shops to open, at or near the depot, a combination stere, where grocerics, dry goods, &c., may be purchased by the stockholders at cost prices, with the actual expense of operating the store added. The proposition is that each stockholder contribute fifteen dollars toward starting the business, and, in consideration thereof, be entitled to all the privileges of the store. The store will be controlled by an agent appointed by the association and all articles needed will be bought in bulk, at wholesale prices. A meeting was held last night, in pursuance of this plan, but no specialty, small expenses a novelty, lowest definite action was taken. Similar stores have been operated in many of the large cities with signal success.

A WARRENTON PARTY .-- The Warrenton Solid South says: "There was a charming little party at Miss Gaines' on Wednesday night, and as the employ was tike rare old wine, very choice and select -of course the hours flew by as swiftly as-as-well as fast as time always does when music, wine, moonlight, sly, passion-ate eyes, waving tree es, mingling hair, swaying forms, sparkling eyes, ruby lips, are all comingled. It would be impossible to individualize; to wear a disproportioned Boot or Shoe had better examine our stock of goods, as the shapes and makes for sale by us will suit all given to the violet. The charming hostess did the honors in her awa inimitable graceful way.'

> TRAMPS .-- Owing to the many depredations and outrages committed by tramps, Mayor Kemper has decided to rid the city of them as far as possible during the coming winter. He will instruct the police to arrest the tramps wherever found within the city limits, and send them out of town. If found inside the city after having been thus sent out, they will be put on the chain gang as vagrants, and be required to clean the streets for their board. This action on the yart of the Mayor will, no doubt, be commended by all good citizens.

SAN FRANCISCO, September 20. - Governor Irwin has pardoned ex Harbor Commissioner, John Q. Marks, who, was convicted in 1875 of embezziement of public funds and sentenced to seven years imprisonment in the penitentiary. The Governor has offered a reward for the cap ture and conviction of the Chinamen concerned in the recent murder at Rocklin. Warrants have been issued for the arrest of twenty five white men engaged in driving Chinese away from neighborhood of Rocklin. The Governor characterizes Col. Bees' dispatch asking his interlerence to put down disorder in Piacer county as injurious and as tending to exaggerate in the mind of non-spectators the extent of disorder prevailing there. He expresses regret at the illegal action of the whites as it is calculated to prejudice public sentiment in reference to the settlement of the question of Chinese immigration. A dispatch from Placerville says: Congressman Page's libel suit against the Chroniele was postponed by court this evening on motion of defendant's counsel on the ground that Mrs. Pinney and other witnesses could not be found. The prosecution opposed the motion on the ground that Page and Sagent would soon have to leave to attend the extra session of Congress, but court decided to continue the case from term to term until their return to the State.

Paris, Sept. 21.-An address to the nation, signed by a number of Parisian and Provincial of the Head, Nervous Prostration, Low Spirits, candidates for the Chamber of Deputies, rep. &c., you need not suffer another day. Two resenting all shades of republicanism, is published. It replies point by point to President McMahon's manifesto. The following is the concluding passage: "Your duty will increase with the audacity of those who presume to impose themselves on France. You cannot become the instrument of clericalism. The Retance they can during the meetings now being public must have republican functionaries, and the country expects order, peace and stability through the republic. ICE HOUSE CAVED IN-A THRULLING

> Scene. -Oo Thurslay evening of last week, while six hands were engaged in digging out Mr. Joseph W. Mills' large ice house, in the upper end of the town, a large slide occurred catching Mr. Willis Mills and a tramp by the name of Thomas Nolan, from New York, covering them almost entirely over. The balance of the hands made their escape. It was about twenty-four feet from the surface of the earth to where the hands were digging. Mr. Mills was covered to the arm-pits and Mr. Nolan was completely covered, save a few locks of his hair. Mr. Mi'ls was helped out by one of his sons, while other parties were engaged in extricating Nolan. While this was going on it was discovered that a very large portion of dirt had almost broken loose from above and was in the act of pouring in upon them, which threatened to covor them all up and suffocate them to death. The parties who were endeavoring to extricate Nolan sceing this and knowing their lives were in danger made their escape, while these at the top of the house who had been anxiously watching their efforts and praying for the relief of the stranger, unable to behold the sad sight, turned their lacks until the worst had passed. It was both an exciting and thrilling scone, and has been equalled in this place only by the caving in of the well in Mr. Michael McCracken's wagon yard, in which Mr. Pollard was covered by sixteen feet of sand, and in which he lost his life. The young man Nolan could look up and see his danger, but was as unable to help him-self as were his fellow-laborers to help him. He was satisfied that his death would follow the second slide and he saw no hope of averting it. The second slide came, burying him to the depth of some two feet. As quick as thought the entire party went to work to dig the dirth away from him before he sufficiently to allow him to breath, to the great relief of every one present. He was taken out, and, strange to say, he felt no pain or injury from the great weight of dirt that had falen and pressed upon him. He says while he was under the dirt the first thing he thought of was his mother, and then everything he ever did in his lift not strictly right came up in his mind .- Fredericksburg Bulletin.

GRAPE CULTURE is fast becoming one of the leading businesses of this country, and that, together with wine making, are generally very profitable. Mr. A. Speer, of New Jersey, one of the largest producers in the East, commenced but a few years ago in a small way to make wine from currents, blackberries and other fruits. He soon turned his attention to grape raising, and planted large vineyards, from which his famous Port Grape Wine is made, which chemists and physicians say rival the world for its bonelicial effects on weakly or agod persons.

"SEOLA REDWEIN."--We have used Soola Redwein for some time past in our families, and find it to be of wonderful efficacy in RELIEVING SICK HEADACHE. Mrs. DR. BAKER.
